

**Posting Date:** August 26, 2024

**Closing Date:** September 30, 2024

**Position:** Safety Lead, Senior EHS Consultant

**Compensation:** Salary \$110,000 to \$130,000/year  
+ Performance Based Compensation

**Work Location:** Hybrid

**Office Location:** 305 – 3999 Henning Dr., Burnaby

**Position Description:**

Arcose Consulting Ltd. (Arcose) is seeking a Senior Environmental Health and Safety Consultant. We are looking for an experienced health and safety professional to build a successful practice within Arcose and to take on a leadership role.

The successful candidate will be responsible for supporting and managing projects, delivering consulting services, and ensuring successful project outcomes. They will also play a key role in developing and mentoring staff within the organization, as well as identifying and pursuing new business opportunities. The expectation is that competent, courteous, professional service will be provided to clients and colleagues.

At Arcose, we place a strong emphasis on work-life balance. This is a full-time position, which will be managed around core office hours (10:00 AM to 3:00 PM). It is expected that adjustments will be made as required to accommodate client schedules, project work and office needs.

This position comes with a competitive salary as well as medical and dental benefits upon completion of a 3-month probation and an employer matched Group RRSP.

**Minimum Requirements:**

- CIH, ROH, CSP, or CRSP designation
- 7 or more years of EHS experience
- Master's or Bachelor's degree in science, business administration, engineering or other related field
- Ability to travel for project work
- A valid driver's license
- Access to a reliable vehicle with appropriate insurance
- Strong verbal and written communication
- Proficient in the use of Microsoft Word, Excel and Outlook
- Ability to work independently and be self-directed
- Ability to effectively manage a team of EHS Consultants to complete projects in a thorough and timely manner
- Ability to work in the field in adverse conditions, such as construction sites, mines and manufacturing facilities
- Ability to use respirators, hard hats, eye protection, foot protection and other PPE without restrictions
- Ability to move equipment and other loads as great as 40 pounds over uneven ground for long distances
- Must be able to pass criminal records checks in compliance with company policy, client specifications and regulatory requirements
- May be required to undergo drug testing, as per client requirements

**About Arcose:**

Arcose is a growing environmental health and safety consulting company. We have strong connections to the health and safety community and have built reputation as a premier health and safety consultancy. We pride ourselves on working with our clients and partners to develop solutions that work for them.

To ensure the highest quality product, all formal reports are reviewed and approved by qualified professionals. Our focus on providing a quality product helps to distinguish us from our competition.
