

Position: EHS Consultant

Closing Date: June 29, 2026

Expected Salary Range: \$65,000 to \$80,000 Annually

Work Location: Primarily Metro Vancouver, some travel required.

Office Location: 305 – 3999 Henning Dr., Burnaby

Position Overview:

Arcose Consulting Ltd. is seeking an Environmental Health and Safety (EHS) Consultant to support the delivery of consulting services to a diverse client base across multiple industries.

This role is suited to a motivated professional seeking to develop into a well-rounded consultant through direct involvement in fieldwork, reporting, and client support. The successful candidate will contribute to project delivery while maintaining a high standard of professionalism and service quality.

This is a full-time position. Work schedules require flexibility to accommodate client requirements, project timelines, and operational needs.

A six-month probationary period applies. Upon successful completion, the employee will be eligible for a comprehensive benefits package, including extended health, dental, long-term disability coverage, 5% employer RRSP match, and 120 hours of annual vacation.

Key Responsibilities:

- Support the delivery of EHS consulting services across client projects
- Conduct fieldwork including site inspections, assessments, and audits
- Assist in the preparation of technical reports and documentation
- Communicate effectively with clients, colleagues, and stakeholders
- Maintain a professional and safety-focused approach in all work environments

Minimum Requirements:

- Diploma, Bachelor's Degree, or Master's Degree in a related field
- Previous experience in consulting, construction, or manufacturing is an asset
- Valid BC driver's license
- Access to a reliable vehicle with appropriate insurance
- Strong written and verbal communication skills
- Proficiency in Microsoft Office (Word, Excel, Outlook)
- Ability to work independently and manage time effectively

Physical & Site Requirements:

- Ability to work in field environments including construction sites, industrial facilities, and remote locations
- Ability to wear required PPE (respirator, hard hat, eye and foot protection)
- Ability to climb ladders and navigate uneven terrain
- Ability to lift and carry equipment up to 40 lbs

Additional Requirements:

- Ability to travel for project work
- Must pass criminal record, vulnerable person and security checks as required by company policy and client specifications
- May be required to undergo drug and alcohol testing based on client requirements

About Arcose:

Arcose Consulting Ltd. is an established environmental health and safety consulting firm based in Metro Vancouver, providing services to clients across Canada.

We support organizations in managing risk, maintaining regulatory compliance, and improving workplace safety through practical, results-oriented solutions. Our team brings experience across a range of industries, including construction, manufacturing, and resource sectors.

Arcose has built a strong reputation for delivering high-quality, defensible work products. All final reports are subject to internal review and approval by qualified professionals to ensure accuracy, consistency, and technical rigor.

Our approach is grounded in professionalism, responsiveness, and a commitment to delivering value to our clients.
